

RIC 2026 Business Meeting

Kevin Holman – Kal Elhoregy

ANNUAL MEETING

**COLLABORATE, STANDARDIZE,
INNOVATE TO MODERNIZE REMS**

MARCH 11-12, 2026 • WESTIN
ARLINGTON, VIRGINIA

Compliance with Antitrust Laws

It is the policy of the REMS Industry Consortium, Inc. to comply in all respects with applicable antitrust laws. Discussion today should focus on topics that are permissible and should not include disclosure of proprietary or other commercially sensitive information or other prohibited topics.

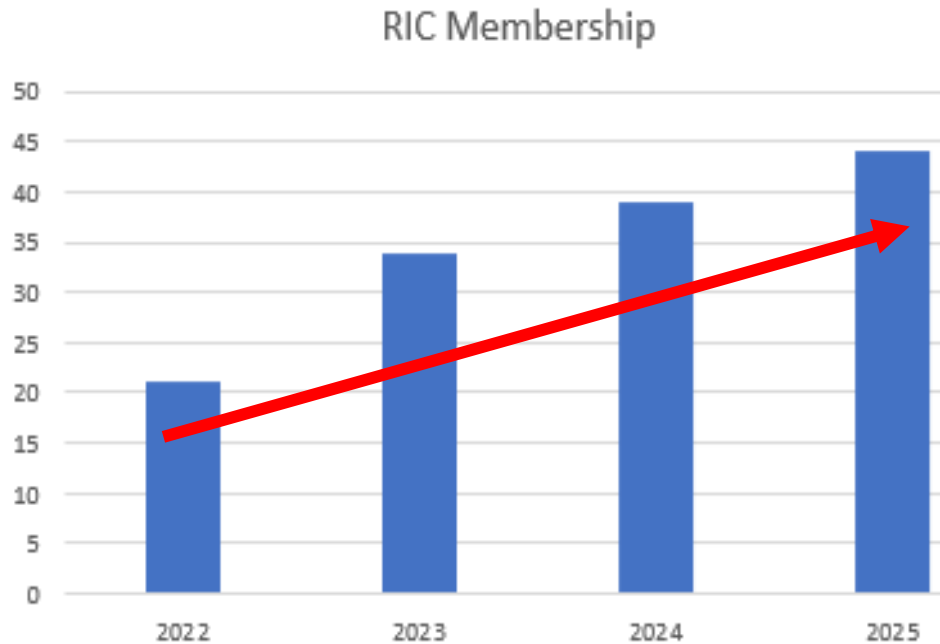

Prohibited topics include, but are not limited to, prices, allocating territories, boycotts, or any other statement that may be construed as anti competitive. Some anti competitive conduct, such as price fixing, bid rigging, and market or customer allocation agreements, automatically is presumed to be illegal and the absence of any actual harm to competition will not be a defense against a claim for such conduct.
